

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

APPLIED ARTS DRAWING BOOKS

Books that make for Art and Progress in Teaching Drawing

Five Men of One Mind

WALTER SARGENT, Professor of Art Education, University of Chicago.

"The Applied Arts Drawing Books' seem to me to be excellent in every respect. You are to be congratulated on the beautiful reproductions in color. These books ought to be a great help to the cause of art education in the Public Schools."

WALTER SCOTT PERRY, Pratt Institute, Brooklyn, N. Y.

"They are sure to have a great influence. Never before have such beautiful and helpful color plates been printed for public school work."

HENRY TURNER BAILEY, Editor "The School Arts Book."

"Without doubt the richest in illustration of any drawing books on the market."

ARTHUR W. DOW, Teachers College, Columbia University.

"The books would be very valuable for the color reproductions alone, but I think teachers will appreciate and value them more because they are the work of Miss Seegmiller."

JAMES HALL, Ethical Culture School, N. Y.

"The Applied Arts Drawing Books' are bound to become an important factor in developing true art appreciation among American people. They make it possible, as never before, to put into the hands of each child for study and for emulation fine examples of art, drawing, design and color."

These books do not present a formal Course in Drawing to be followed literally, but an invaluable collection of suggestive material for each teacher to adapt to her course of study. Prices only 10 and 15 cents a copy.
